

Magic HOME LIGHTING SYSTEM

WITH USB CHARGER

Model No. RS-405

Dear Sir,

I wish to introduce our New **Solar Home Lighting System** model **RS-405 (Magic)**

This is a unique system that has many added advantages listed below and claiming superiority in any competition.

1. This system has one ALL IN ONE power box with integrated functions of solar charge controller, USB charger, Load distributor with connections controls and switches etc.
2. It is suitable to generate power for TWO LED bulbs for 12 hours and ONE Bulb for more than 20 hours.
3. It has provision for FOUR LED bulbs though but if used all together the light hours will reduced.
4. It is a complete solar power generator to power your lighting needs and mobile charging requirement in most convenient way.
5. It has an inbuilt intelligent solar charge controller PCB which automatically charges batteries; maintain current stability, good health of batteries. provide protection against OVER CHARGE, OVER DISCHARGE and fault Reverse current to save system.
6. It has a dual charging mode of DC solar and AC though adopter in case sun is not available. So no power black outs now even during rainy days.
7. The control switch in the system box controls total operation of the system however, charging still be operative.
8. It has one USB mobile charger also.
9. It has an inbuilt safety fuse to protect the whole system.
10. It is 100% reliable your own solar powered Home lighting system giving you FREE LIGHT POWER FROM SUN SAVING YOU MONEY AND RECOVERS ITS COST IN ONE YEAR APROX.

Let us give shine to those homes also which has been Deprived of light in their life
